EXPERIENCE

PERSONAL PROJECTS

World Clock Application   *https://worldclocklca.netlify.app*
I designed and coded this world clock application using **vanilla JavaScript**

Yakushima Travel Project   *https://yakushima-travel.netlify.app*
I designed and coded this landing page with more advanced HTML and CSS features

Weather Application   *https://reactweatherapplicationlaia.netlify.app*
I designed and coded this weather application using **React.js**

Dictionary Application   *https://reactdictionarylaia.netlify.app*
I designed and coded this dictionarty application using **React.js**

All projects are responsive and have open source code
Please, check my portfolio (🗔) for more

WORK EXPERIENCE

PhD in Chemistry at EPFL, SWITZERLAND.   2018/2022
Published in highly recognised scientific journals on nanomaterials. Relevant skills: project management, working under pressure and strict deadlines, oral and written communication, figure and poster design with Adobe Illustrator.

RELEVANT TRAINING

🌈 **SheCodes**

I succesfully completed all SheCodes coding workshops (Basics, Basics Adds-on, Plus, Plus Adds-on, Responsive, Responsive Adds-on, React, React Adds-on) and obtained the final *Front-end developer certificate.*
